Though I had some idea regarding keyword analysis but with your e-book I came to learn a lot more about it. I didn't have much of an idea regarding niche research but after reading the pdf I have gained knowledge of that as well. Tom Lyons	Canada	Your Traffic stuff is great, amazing. The free videos you give on SEO domination is great. Udnerstanding that you can build these nets of Web 2.0 properties to funnel traffic was an eye opener.
Adama Monday	Nigeria	This is my first experience with your site but I believe you have brought hope to people like hoping to make income on the net
Mark Forde	United Kingdom	There has been so much free content that I am not sure where to begin. But the thing that strikes a chord so much is the fact that Google is a place where you are given all the answers in advance. There is no need to use keyword optimizers when the truth is right in front of you. Google lay it all out on a plate and all you have to do is become the detective and do your research and make the most of the information given. Howie religiously preaches the fact of being able to adjust your own visibility and 'see through googles eyes'. This couldn't be more true if you hope is to dominate your particular niche and be at the top of the rankings. The other absolutely ridiculous 'wake up' call' that Howie gives is the fact that you could own googles entire first page. Never in my eyes widest dreams could I have thought that this could have been imaginable. The truth is, it can be an actual reality if you know how. And did I say first page I'm sorry, more like the first two maybe three pages dependent upon your desire. Just follow the masters lead.
Suresh	India	I have seen few of your free videos and they are amazing . I am really pleased to see that persons like you are ready share such valuable and amazing information free to help people grow their business.You are a Gem. I laerned how to serach profitable keywords
Anastasia Skourides	Australia	I particularly liked the video Howie did on niche identification. I picked up a few tools to use from Google that I didn't know existed. This gave me a new perspective of how to use Google to my advantage. Yeah!
Karl	Uk	Howies Bonus is great. It was completely free of charge and gave me \$5000 worth of resellable products. Thanks Howie
Anthony Ogundeyi	England, UK	Howie Live' video is my 1st exposure to you. I found the content informative; I intent to implement the Google Trends / Word Press strategy you shared. Whilst i've tried a similar strategy using Adsense, I made no money. I feel you have added a valuable piece to the puzzle. Thank you.
Luke	Uk	I liked your web 2.0 video a few weeks back on how to dominate the first page of Google, I have implemented this for a niche phrase for the industry i work in, and yep i have 5 listing on the first page, nice...

John Bowyer	United Kingdom	I love the Videos that you give us FREE access to as there is usually tons of Great Content with tips and hints that other people charge us for.
David	South Africa	Apprentice 2 has given me a different perspective on what is required to rank highly on search engines. The apprentice program gives you step by step instructions and numerous resources every serious marketer needs to be successful
Rodger Cresswell	United Kingdom	Conversation Domination really tells it like it is. If you are in internet marketing you need to be confident and aggressive with it.
Mark	United Kingdom	I own Black Hat 2 It is fantastic what Howie has offered here in the techniques when applied to really get down and dirty in finding excellent niche markets and then promoting your own like an assassin. I.e undetected
Pam	Australia	I like the 'watch over your shoulder' style where we can see exactly where you go and what you do to find your information. You can always pause and write down notes if you are unsure.
Hector	Slovakia	Imleadership enlightened me to see that once you have the sites up you can redirect the traffic to any buyer so you actually build a business this way. Genius.
Jonathon Perino	Australia	Hey Howie, I got on to Traffic Holiday and Black Hat is bawk to get the low down on what it takes to get visitors. The video tutorials are great and easy to understand. I have increased my rankings and stumped most of my competitors for my bricks and mortar web properties. I have learned to take Web 2.0 seriously and the results are tops in a tough economy where others are going bust my website is number 1 & number 2 for almost every keyword phrase thanks to what I have learned from Howie.
Aaron Lamont	United Kingdom	I heard about Howie's methods of how he conquered the halloween niche many months ago and was making a small fortune from just this one niche, I had to get in and find out his tactics. I finally had the opportunity as he provided some free videos showing how he made money in the halloween niche, from the free video I was able to launch my own campaign and make \$611.03 in one month. Ok it isn't a huge fortune but from a free video from Howie I was able to take action and put his methods into place to make money.
Dan	Singapore	Conversation domination . It is very amazing to learn the way to dominate the search engine in such a short time. I've never expected that before I joined the course.

Phil	Canada	I enjoy your U-stream videos. They are straight up, honest, and not an attempt to be slick. You tell it like it is.
R. Van Dalen	Netherlands	I liked the free content because i saw, in real-time, how Howy did his research. I could see with my own eyes how he put his money where his mouth is. No

		faking, just the real deal.

Janina Judek	Canada	I liked your Mr. Potato video because it was entertaining. You have a way of making people laugh which is pretty cool...I like your videos.
Craig McIntosh	Canada	I find the free video content you put out to be very helpful and I appreciate the fact that your content is real and up to date. Thank you Craig M
Gerard Draper	Australia	As a newbie I am finding Apprentice 3 leading me into practical hands on application of methods and techniques to build long term income from internet marketing
Paul Laughton	England	The 51 page pdf was the highest quality freebie I ever had. So many claim they will give you the secrets that no one else will, but then you realise it's just another load of bs. This pdf gives you the confidence to market because you know you're doing it right. No more worrying about if it'll work, because you know it will work. I even felt guilty.....for a split second, with the advantage that this would give me over evryone else in my niche
Miguel Williams	Jamaica	Traffic Holiday I learned how to look to look for niches that i can start an online business. Ron	Netherlands	Howie, Your language may be a bit controversial, but fortunately so is what you teach. I really liked your video presentations, as they have learned me to notice the obvious things, not told by any other marketer, as far as I know.
Veronique Van Eeden	South Africa	I have thoroughly enjoyed your pdf file on the blackbook as this has taught me the basic's of online marketing which I am now trying to impliment.
Jonathan Tassone	Canada	(As above) -Howie and his team are great. They are professional, concise, and put forth a conscious effort while genuinely caring about the success of others.
James	Australia	I loved your video on how you approach niche marketing. I think it was when you were in NY. You were talking about how you successfully went for the wedding market. I learned how to connect with 'buyers' as opposed to just 'browsers and entering the conversation that they are already having in their head. Great stuff.
Harry Blink	Spain	Unbeknown to Howie I rip all his videos to watch on my t.v. [Wide Screen] to digest everything. You can't say with Howie's products or his info that this is better than that: each one is an essential part of an unfolding puzzle that broadens and crosses prime uncharted marketing territory. Howie is either quite mad or an IM genius - I tend to go with the latter.

Bruce	Australia	I love Howie's U-stream videos because they are packed full of valuable information that comes from straight from an experienced marketer who is always keeping up to date with the latest trends.
Michael	Australia	The "BH Scraper" I'm just starting to link it all up in my head. Thank-U I have learnt alot about product/market viability. Through studying your information.

Opal	South Africa	I do like the logical and clear step-by-step way in which your material is presented in the free content I receive. Graphical illustrations of exactly what to do and where to go is another strong point that supports the material whether it is for finding a niche product or what to do with Web 2.0.
Dann	Malaysia	I have learned a lot from your Niche Research strategies. Not many people are willing to share this valuable knowledge especially by giving it away for free.
Eric Harrison	New Zealand	How to Test Your Niche Market is a great read. It must be because it's one of the few pdfs I actually printed off and read before going to sleep. Seriously, joining all the dots from idea to live web 2 accounts is extremely valuable to me. No mystery. Step 1. Step 2. Just do it now.
Max Harrington	Australia	Conversation domination I used the techniques, not to the full extent yet. Using 2.0 properties in conjunction with video marketing I was able to get my wives business in eight out of ten places on the first page in Google with a particular keyword. We actually knocked the big players off the first page. Admittedly it is the name of our company and from time to time it slips back but it was great to see this actually worked and I can see how you can dominate in a particular niche which ultimately leads to profits
Catherine Anne Macneil	Canada	I watched the free video promoting your Apprentice 3 program and was blown away by the information you freely shared with everyone. I learned more from that one video than I have from anyone else in the past six months.

Steve	Australia	Howie sends heaps of content;most recent being monetising traffic,how to turn your traffic into buyers and not lookers.

Varughese K Eappen	India	I downloaded the free pdf underground-traffic-society which consists of 32 pages of exciting content. It's a great pdf which tells where to get backlinks from. I didn't know anything about the sites mentioned in the pdf. It opened my eyes to how many ways of traffic generation exists. This is again one of those contents where people like me consider themselves to be lucky to get it for free as this is something really useful.
Mark Mueller	Switzerland	I like your down to earth workshops. Fortunately I saw already a few videos of them. No filler, just pure content and some fun. Well done, mate.

Chetan Singh	India	Apprentice helped me to think beyond clickbank. I learned there is so much potential to discover untapped niche at amazon. I now learned the right way to choose less competitive keyword & how to find the buying keyword. I am completely flabbergasted about the free google research tool like Ad Targeting Preview Tool & Google insights for search.
David Mcdaniel	Brasil	Ustream tied to this offer - good idea on focus, pick one area and focus i.e. One traffic method rather than jumping around.
Rio Lowry	Canada	Howie's Apprentice. I learned more and was more effective in my niche marketing in the 12 weeks of the apprentice program than I had been in the 3 years before that. I now look at google in a whole new light. Plus the bonuses and tools alone are worth the price of admission.
Anthony Iwikau	New Zealand	Black Hat 2, I am a research and new idea junkie. The information in here is not only groundbreaking, but you get steps on how to use the stuff....Anthony Iwikau

Riaan Gorgens	South Africa	I enjoyed your videos on how you do market research and keyword research using google to see what the searcher wants. This is so different to what i have seen in other products and just make so much more sense rather than over doing your campaigns with thousands of irrelevant keywords.
Tom Lyons	Canada	Teh ustream videos have been great, a wake up call really, talking about not jumping around, focus and master, then move to the next skill, focus then master. That alone has put an extra \$600 per month in my pocket as I roll out my new service.
Mark Forde	United Kingdom	There a great video that I received from Howie that showed the power of video marketing. Everyone knows how tough it is out there for the realtors of the world. But this theory was proven unfounded when one of the previous Apprentice members shared his own testimonial of how he had placed a simple video on Youtube prior to the sale of a house. When the day arrived and the house came for sale it literally flew off the shelf. What the case study showed me was that is possible to sell 'even' houses in this climate. That you can have a high end product like a house and use simple methods to sell. That on the back end of the sale of this house he got referrals for the clients next abode. And that by using diversification not only could this realtor move into the commercial markets, but that he could set up marketing and help clients monetize their business immediately. Absolutely fantastic!!
Karl	Uk	Apprentice 3 cloud guide was a step by step guide to finding popular products and selling them on an affiliate basis. It's very easy to follow and best of all completely free of charge. Thank Howie
Mark	Singapore	You once sent out a video explaining how you do research by just looking at adwords advertisers, that was great. A quick and easy way to determine profitability of a market, instead of talking b.s. And turning it into a science!
David	South Africa	Howie Schwartz and his team are constantly innovating to bring the most up to date cutting edge strategies for running successful online businesses
Pam	Australia	The PDF's are great and give really good detail. The screen dumps give great visual instruction and I find Howie's style very easy to read (some others are just so boring I'm lucky to get a quarter through them)
Jonathon Perino	Australia	Traffic Holiday is quick and to the point, no fluff and easy to use ping tool to ramp up my blog network. Simple and sane advice that put my site to the front page of google and yahoo in weeks.
Sabiha	Saudi Arabia	Howie is an expert on Google and Web 2.0 traffic generation techniques. I loved his 'Traffic Holiday'. Howie always stays ahead of Google and the best part is he keeps his list informed about anything and everything to do with Google, Conversation Domination and Social Marketing. Howie has not only introduced but also mastered the previously unheard of art of owning 8 or nine out of 10 spots on Google's first page for any niche he chooses. Sabiha Siddiqui http://www.webmarketinggems.com
Phil	Canada	The mini flip cam videos are great from a 'who is Howie' perspective...no need to be a videographer to get the job done.
R. Van Dalen	Netherlands	Another reason i really like Howy's free stuff is because he's not afraid to go all the way on a specific subject. His talks aren't full of cliffhangers and half-the-stories. He discuss one subject to the fullest. Really appreciate that.
Sylvana	Australia	Bahahahaha! World marketing domination is the only way to go. Howie and his team do it best with easy to understand videos to guide you the whole way.
Janina Judek	Canada	I was a member of PPC Classroom and got your bonus video product, which I went through and took notes on. It helped me understand how to use PPC for testing a market, but more importantly the concept that just ranking for a keyword isn't a big deal...it's about ranking for keywords that buyers are typing in.

Craig McIntosh	Canada	I purchased Traffic Holiday I learned a lot from the Info product generation section on researching niches, the keyword tool is also quite useful to be honest the whole package is great. Thanks Craig M
Gerard Draper	Australia	Traffic Generation Webinars, eg St Patricks Day, a mixture of solid practical traffic generation help and some light humour to break up the info and an example of how to attract traffic in itself.
Paul Laughton	England	The hour long video that I just watched with howie in the boys locker room, sorry studio, because even though I'm up shit creek, I'm no longer without a paddle. If you're thinking your failing then you need to watch this because what Howie said has just made me realise that I'm succeeding even though it feels like I'm not. It's made my day
Syed Redza	Malaysia	You'd give really high quality content on your howie's apprentice pdf materials. It really was an eye opening for me as it opens to other areas of income opportunities. Thanks.
Mike Haydon	Australia	Howie's evil social bookmarker is dynamite against my competition. I don't have to spend hours bookmarking to all my sites - just setup the campaign and let it run on schedule. I can be as aggressive or passive as I want.
Deacon North	Finland	Hi Howie! Underground traffic Society has really opened my eyes on how to get my IM to the nesxt level. Information you provide and the step-by-step guides are phenomenal! This is the best product I have EVER bought. Period Regards, Deacon North www.teachyourselftosuccess.com

Veronique Van Eeden	South Africa	I enjoy your videos and enjoyed this one today which talked about how to set about implimenting web.2 marketing with twitter and blogging
Clare	Uk	I picked up access to Howies Pinger in the watersale (I think) and find that really helps to automate one of the traffic building processes. I'd really like to have access to more of your tools!
Jonathan Tassone	Canada	In my opinion, Howie's field of knowledge overshadows most. Ranking him as one of the best in world, in overall online marketing, and business as a whole.
James	Australia	Your conversation domination content was awesome. Seeing how you easily dominated the majority of first page listings on the front page of Google for 'money keywords' using Web 2.0 properties (that Google loves) was mind-blowing.
Harry Blink	Spain	One of Howie's video was a revelation. He planted a new idea to the attendees at his seminar. IM marketing to your local business community. This was a gem covering every detail of how easy it was to become a top dog in your town. Here was the best though... Once you put your client on the first page of Google you made yourself almost indispensable - they can't dump you, or your fees... Why? Because you take your IM expertise to the competion. Magic Pure Gold!
Louisa	Canada	I saw a video of your SMARTS presentation at stompernet Live last year. You were fun and engaging and gave great information on how to understand and work with Google. It was the first time I really got some insight into how Google works and their purpose. It helped me begin to put all of the things I had learned about Internet Marketing and SEO together.
Minhui	Canada	Watch This Video To Discover How Ed Uses What Howie Taught Him To Make Easy Money As A Consultant- Taking One Client From 5000 Page Views A Month To 50,000 Views! I like this video . Ed said you have to increase web traffic step by step with new web 2.0 application .

Rosalie Jarotski	Canada	I think you will be very blessed for giving out free, incredible knowledge at a time when people just seem so greedy you just seem to care about the less fortunate.
Eric Harrison	New Zealand	I found Howies Free Networks Video eyeopening and butt kicking. Eye opening because the concept seemed so obvious why didn't I see it? Butt kicking cos it was a reminder not to (complicate things and take out as much fluff, fat and unnecessary steps out of the process--that is) procrastinate.
Max Harrington	Australia	I like the quick shot audios and the other mp3 releases because I can ride my bike to get away from the computer for a while but keep on learning while exercising. I also have an IPOD in my car which I put any thing I can on so there is no time that I am not learning. My car is a mobile university. It seem no mater how many times I listen to a particular subject I always seem to here something new each time I listen.
Peter	Australia	Howie's Apprentice 3 - Niche & Keyword Research The Apprentice Way . . . This ebook gives you a easy to follow formula for choosing a niche product without the fluff and BS and complications I have read in other books!!
Leora	Canada	The Apprentice Program contains vital information that explains how to think about how you construct your adwords campaigns so that the investment brings fruit from the outset.
Jimmy	United Kingdom	Howie always overdelivers with web 2.0 techniques to dominate search engine rankings, and generously gives so much of this information for free!
Steve Gomm	Uk	Howies Everthing Google Taught me in 2008 was a great insight for me. A lot of things that Howie talks about don't even show up on the radar elsewhere. I use most of those methods everyday and I show them others too.
Kevin	New Zealand	Black Hat code Although this is "advertising" for the black hat program, the report itself contains some really useful ideas and information on how im works.
Dan Goonewardene	Uk	I like Howie's unique approach to niche market analysis and keyword selection, which are closely coupled to what Google wants.
Jedi	Malaysia	The im leadership training is another block buster that unlocks the key to making easy money with your cutting edge strategies! I am looking forward with great anticipation to participate in this exciting event that will blow my mind off to the next level life! Cheers* jedi teh*

Dick Kleijne	Netherlands	Black Hat is Back How to find Web 2.0 sites for link building was very eye opening for me. That there is such a product as Black Hat Scraper! In the very competitive niches you cannot without it.
Steve	Australia	Howie has shown me how to find niche markets where there is money-this will save me heaps of time and no wasted effort.
Anthony	Canada	You update us the fastest on when Google changes something with their search engine. You are the most on top of your game with that!
Maria Luna	México	I have like the some of your videos, because on each one I learn on Google and how to get traffic. I was told all time that take months and months to get organic traffic.
Varughese K Eappen	India	I like all of the free videos that you show on USTREAM. I must say that I have yet to come across a video which I didn't find useful. The videos have taught me various traffic generation techniques and have shown me ways to tackle Google which can be a monster for those who don't know how to tame it.
Mark Mueller	Switzerland	The 51 Page PDF regarding keyword research and Web 2.0 traffic was excellent. I knew already a few of the gems, but you combined it in a genius way. And one thing is more important than anything else I get from the "gurus": You don't promote crappy products like the most of them. That's why I trust you more.

		And that will give me reason to buy your products.
Paul Bull	Australia	I always watch and listen to the free content you send out regularly as you're one of the few "Gurus" who can lay things on the line, tell it how it really is without holding back, and provide really interesting, useful content especially to an aged newbie like me.
Catherine Kennedy	England	The apprentice-niche-system-pdf has some really good insights. I am working my way through it. It way over-provides information so it is taking me some time to absorb it all.
Rio Lowry	Canada	Online profit workshop this content was like turning on the light at the end of the tunnel in my online marketing efforts, I began to see everything I was doing in a new light and began to realize that traffic meant nothing, only dollars matter to my business, without that I don't have an online business, I have a time consuming hobby. Its a goldmine Ive been able to begin to apply everything that Howie talks about in this program and it has definitely taken me to then next level on my online business
Anthony Iwikau	New Zealand	Black Hat Evil Updates. I love the idea that you can get this evil information every month. The internet changes and getting the latest hot website or techniques. Just blows my mind...Anthony Iwikau
Riaan Gorgens	South Africa	Seeing the videos on social marketing once again just blew my mind. I was only familiar with ppc and seo traffic so seeing how to use social networks to drive traffic to your sites was very cool and those techniques is something i need to master in the coming weeks
Tom Lyons	Canada	Your videos, on getting things started, talk about getting something out there. That you need to get a project going, get it out there. It's the only way to start learning and making money.
Mark Forde	United Kingdom	A great testimonial that I will never forget is where an ecommerce owner thought that he wasn't going to learn much by going on The Apprentice program. All he was hoping was that he could improve his marketing effort and probably add another zero to his business. Was this guy in for a shock when upon completion of The Apprentice program' that he not only added a zero or two to his business, but that he had to add another zero to his staff. In fact he had to double his staff to make way for all the new things he had learnt because he couldn't possibly do it all himself. For someone thinking they were not going to get much out there training he got a whole lot more. Proving you can teach an old dog new tricks. And this was someone already earning what most marketers would consider a good income. Moral of this story is if you think you know it all, you most certainly don't. There is always something new you can learn. And there are always additions to be able to scale your business to where ever you deem a comfortable income. More importantly this entrepreneur is now passing on his knowledge to is staff to empower them with their knowledge. And more importantly with all the outsourcing needed more people are becoming employed and money generated. Making these individuals pertaining to a better life. Thus keeping the whole cycle of business moving. Brilliant..
Karl	Uk

Sabiha	Saudi Arabia	Howie has taught me the correct way to do market research. His market research techniques are most up to date and 'technology' and 'Google' savy. The way he selects and dominates a profitable niche is mind blowing. Sabiha Siddiqui http://www.bestbizoffers.com
Sylvana	Australia	I learned that it's easier to follow Howie and what he's doing, than to try fighting him or his clients on the google domination front. Don't bother, they'll only slam you once they find the niche!
Janina Judek	Canada	I recently downloaded your Apprentice Niche system PDF. I read through it and could see the power of your approach. I like the way you do the keyword research upfront to determine commercial intent before going ahead with a project. If that doesn't add up, there's no point in going any further. That's what comes to mind off the top of my head as far as what i've learned - need to go back and re-read it again. Thanks Howie.
Paul Laughton	England	Howies black hat keyword tool...awesome! What a time saver and it's accurate. Get your keyowrds right and you're onto a winner.
Tony	Canada	In general, I would say the biggest thing i've taken away from your free info. Is the importance of proper market research. I've also very much appreciated your sharing some of the methods you & your team use to do your research. Brilliant stuff!

Veronique Van Eeden	South Africa	I wish to thank you for the free content you send out to your list and especially the latest download of the 51 page pdf on niche marketing. Thanks again Howie for teaching us and keeping us motivated.
Harry Blink	Spain	Howie's given his followers more information than any other internet marketer on the planet. He's been generous with his knowledge to an absurd degree, there can't be much more to his apprentice 3 content since he's given most of it away. You're nuts Howie, I just wouldn't put you in charge of my ice cream stall!
Louisa	Canada	I heard part of one of your internet live broadcasts last week about local search engine markets. It was my first time having this kind of info from you. It was great. Again, gave me a deeper understanding of IM.
Michael	Australia	Your products are teaching me for the future, everything else i've bought has taught me what has already worked and is starting to drop off. You teach how to stay ahead, and understand internet marketing for the long term. If you learn something today and it stops working tomorrow you've lost everything. If you learn how to read the changes, then you can position yourself to continue to prosper. You teach that in your lower priced products and your freebies, i can't wait to do one of your high priced products. Thank-you for your quality and value.
Wayne	Canada	The Lost Videos - Howie says "Traffic Is Nothing" how devastating is that to someone who as been told his entire time on line that traffic is everything. Very informative videos and eye opening.
Dann	Malaysia	Your latest Apprentice Niche System especially on how to capitalize on the Amazon Best Sellers section is invaluable. This is really great stuff and the best part is, it's free.

Max Harrington	Australia	Like the ustream events. The subjects are always interesting and it is great to hear the question and problems other people are facing because it gives me a sense of comfort that i am not the only one having challenges.
Catherine Anne Macneil	Canada	Online marketing is becoming extremely competitive, and these days you need every edge possible to guarantee success. Howie's information gives you that edge.
Peter	Australia	I have watched a number of Howies FREE videos and audios. He understands that your time is important too, so he just gets to the point.....and tells you as it is. Each one is filled with "aha" moments, which leave you wanting more.....Great work!
Leora	Canada	Amalgamating some if the "insiders tips & tricks" you reveal in your free giveaways, I have a clearer understanding of how to create an online network via jvs and social networking tactics.
Gary Hyams	Italy/UK	The one free Niche & keyword 51 page download was for me written in a very clear and simple way to understand and highlighted several major key issues that one needs to understand and also need to be able to in force through outsourcing or by your own skills. And yes if you want to use any part of this in your testimonials I would be privileged
Dave	Canada	Howies Apprentice was a very good, nuts and bolts, a-z program for earning money online. At the end of the day is the dollars that count, everythng else is anecdotal
